

WIDETEK 36CL **eco**

ALL-IN-ONE WIDE FORMAT SCANNING SYSTEM

KEY TECHNICAL DATA

Essential specifications for professional wide format scanning

Maximum Scan Width	36 in / 915 mm
Maximum Document Thickness	0.1 in / 2.5 mm
Scanner Resolution	600 x 600 dpi
Scan Speed (Color, 300 dpi)	3.0 in/s / 76 mm/s
Scan Speed (Color, 600 dpi)	1.5 in/s / 38 mm/s
Scan Speed (Gray/B&W, 200 dpi)	4.5 in/s / 114 mm/s
Output Resolution	150-600 dpi
Accuracy	±0.08%
Dimensions (W × D × H)	47 × 9 × 18 in 1184 × 222 × 446 mm
Weight	33 lb / 14.5 kg
Power Supply	100-240 V AC, 47-63 Hz
Power Consumption	<35 W (standby <2.5 W)
Acoustic Noise	<35 dB(A)
Light Source	RGB LED
Certifications	CE, FCC, RoHS
Warranty	12 months

PRINTER COMPATIBILITY

Flexible printer integration for efficient, compact MFP workflows

- Compatible with current Canon wide format printers, including imagePROGRAF/iPF models.
- Optional PrintWizard adds support for Canon/Océ ColorWave and PlotWave, plus HP DesignJet and PageWide.
- The optional Canon mounting kit creates a compact MFP while preserving stand-alone operation.

STANDARD EQUIPMENT

Integrated technology and components included as standard

15.6-inch Full HD display with monitor arm and mount

Intuitive touchscreen operation directly at the scanner

Integrated 64-bit Linux computer

Scan2Net® software (64-bit, Linux-based)

Compliant with ISO 19264-1 and FADGI.

USB 3.1 port for flash drives

OPTIONAL COMPONENTS

Additional components to complete the setup for your workflow

- Floor stand with locking casters for easy mobility and stable positioning
- Rear document return guides for easier handling
- Mounting kit compatible with Canon wide format printers

OUTPUT TARGETS & FORMATS

Files as Multipage PDF (PDF/A), TIFF, JPEG, PNG, BMP, EPS, and more.

Network Folders

FTP / FTPS Servers

Email (SMTP)

USB Drive

Cloud Storage

WideTEK® 36CL **eco**

THE NEW ECONOMY CLASS

Entering Professional Wide Format Scanning
with our All-Inclusive System

WIDETEK 36CL eco

A Smarter Route into Professional Wide Format Scanning

Professional wide format scanning does not always have to start at the top of the range. Many customers need the right balance of quality, speed, and ease of use—without investing in more system than their workflow actually requires.

The **WideTEK®36CL eco** was engineered for exactly that part of the market. It combines proven Image Access technology with a complete stand-alone workflow, intuitive operation, and the performance required for everyday business use.

The result is a professional solution that is easy to offer, easy to integrate, and easy to choose—for partners and users.

PROFESSIONAL PERFORMANCE MADE MORE ACCESSIBLE

UNPACK. CONNECT. START. NO EXTERNAL PC REQUIRED.

AUTOMATIC DOCUMENT DETECTION

The scanner automatically detects the size and position of each original. This reduces manual setup and helps match the scan area to the document with fewer steps.

SCAN2NET TECHNOLOGY

The integrated Scan2Net® software provides direct access to scan settings, workflows, and image controls through the included 15.6-inch Full HD touchscreen. Its clear interface supports intuitive operation directly at the scanner.

DIRECT SCAN OUTPUT

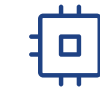

Scans can be sent to a server, uploaded to the cloud, routed to a printer, or saved to a USB drive, with many more output options available. Scan2Net® handles file output inside the scanner without an additional workstation.

FACE-UP SCANNING

With face-up scanning, the original remains visible during positioning and scanning. This makes alignment easier to verify and gives operators more control at every step.

RELIABLE DOCUMENT TRANSPORT

Three spring-loaded pressure drums and 18 spring-loaded double ball bearings distribute pressure evenly across the document. This supports stable transport across a wide range of paper types and helps prevent shifting during scanning.

ALL-INCLUSIVE

The 15.6-inch Full HD touchscreen, monitor arm, integrated computer, and complete Scan2Net® software are included as standard. This makes the system easy to plan, offer, and put into operation.

MADE IN GERMANY

Developed and manufactured in Germany, the WideTEK 36CL eco combines proven Image Access engineering with reliable professional technology. From Germany to the world.

PROFESSIONAL BY DESIGN

ECONOMICAL BY CHOICE

FROM PRINTER TO A COMPLETE MFP

MFP stands for multifunction printer. It combines scanning, copying, and printing in one workspace. With the optional mounting kit, the WideTEK 36CL eco can be mounted on current Canon wide format printers to create a compact MFP solution. This lets users add professional scanning while continuing to work with their existing Canon printer.

The WideTEK 36CL eco offers a cost-effective replacement for all Canon systems. Because it operates independently, the scanner can also serve as a dedicated scan station whenever a separate workflow is needed. This gives dealers and customers more flexibility when planning new installations or upgrading existing setups.
