

Meeting the framing and imaging community at WCAF Expo 2026 in Florida

From February 27 to March 1, 2026, Image Access will be exhibiting at the **WCAF Expo 2026** at the Rosen Shingle Creek Resort in Orlando, Florida.

The WCAF Expo is one of the most important international events for the custom framing and imaging industry. It brings together professionals from framing, fine art reproduction, printing, museums, and related fields — offering space for exchange, inspiration, and practical insight.

📍 **Rosen Shingle Creek, Orlando, FL / USA, Booth No. 628**

📅 **February 27 – March 1, 2026**

On display: WideTEK® 60ART

At WCAF Expo 2026, we will be presenting the WideTEK® 60ART, our scanner solution designed for high-quality digitization of artwork and delicate originals. This marks our second appearance at WCAF, connecting with the framing, fine art, and imaging community.

The WideTEK® 60ART supports accurate color reproduction, gentle handling, and efficient workflows — making it a reliable tool for applications where quality and care are essential.

💬 Let's talk about real-world digitization

Our team will be available throughout the show to discuss:

- Digitization workflows for art and framed originals
- Quality requirements for fine art reproduction
- Practical scanning solutions for professional environments

We look forward to meeting partners, customers, and industry colleagues in Orlando and to continuing the conversation around responsible and high-quality digitization.

See you at WCAF Expo 2026!
