

Image Access exhibits the full range of Bookeye® scanners at the IFLA exhibition in Athens

Wuppertal – August 15, 2019

Every year, Image Access exhibits at the IFLA World Library Information Congress and will again bring the latest products to the 2019 IFLA Exhibition.

This year, this major international conference will be held in a European city with a rich cultural heritage, in Athens, the proud capital of Greece. We will exhibit together with our Greek distributor IID. The exhibition will open on Sunday, August 25th and close Wednesday the 28th.

Image Access will display a full range of [Bookeye®](#) book scanning solutions at our booth A115. The [Bookeye® 4 V3 Kiosk](#) system is a smart alternative to copiers. The larger brother, the [Bookeye® 4 V2 self-service scanner](#) will be on display with a billing system.

We are proud to present the high-end model of the world's number 1 book scanner, the [Bookeye® 4 V2 Semiautomatic](#). You can also see the Bookeye® 4 V2 Semiautomatic in action on the [Image Access YouTube channel](#). Finally, we will exhibit the [Bookeye® 4 V1A](#), a scanner for larger material such as bound newspapers.

As you can see, there are many good reasons to visit Image Access at IFLA! We are looking forward to welcoming you in Athens at our booth!

About Image Access

Image Access is the technology leader in the large format scanning market and offers products in all large format segments: Bookeye® overhead scanners for valuable books more than A1 in size, WideTEK® ART non-contact fine art scanner for formats up to 36 x 60 inches, WideTEK® flatbed scanners for formats greater than A2 / 25x18.5", WideTEK® sheet feed scanners for documents between 36", 48" and 60", 36" duplex scanners for high volume production of double sided scans and WideTEK® MFP Solutions.
