

Enhance productivity and throughput dramatically with a WideTEK® Stacker

Wuppertal, Germany – December 10, 2019

The WT44-STACK-1000 is a large format stacker that works seamlessly with any WideTEK® scanner, even the WideTEK® 36DS double sided scanner.

The [WT44STACK-1000](#) stacks up to 200 44" wide documents of a wide variety of media accurately and precisely. From newspapers to heavy bond material, the stacker holds it all. As soon as the document leaves the scanner, a sensor is activated, and the stacker gently pulls out the document from the scanner. The stacker automatically adjusts to the scanning speed and needs no further adjustments. Just place the stacker behind your scanner and start production.

[Watch this short video](#) to see the WT44-STACK-1000 in action and to learn how to set up and operate the stacker with WideTEK® scanners.

About Image Access

Image Access is the technology leader in the large format scanning market and offers products in all large format segments: Bookeye® overhead scanners for valuable books more than A1 in size, WideTEK® ART non-contact fine art scanner for formats up to 36 x 60 inches, WideTEK® flatbed scanners for formats greater than A2 / 25x18.5", WideTEK® sheet feed scanners for documents between 36", 48" and 60", 36" duplex scanners for high volume production of double sided scans and WideTEK® MFP Solutions.
