Press Release

The Evolution of Bookeye®
Bookeye® 5 V2 models now available!

Wuppertal, Germany – June 16, 2020

The latest evolution in overhead book scanners, Bookeye® 5 V2, offers the fastest scanning speeds, is packed with new features and functionality, and impresses in a smaller, even more sleek design.

In 1997, Image Access developed the first Bookeye® overhead book scanner, completely changing the way books and other documents were scanned and copied. In 23 years, tens of thousands of Bookeyes have found their way to more than 8,000 customers in industry, libraries, administration and many other business areas.

Now in its 5th generation, Bookeye® 5 has again been fully redesigned to meet and exceed today's standards. Eco-friendly, highly productive but easy and fun to operate, the Bookeye® 5 family of scanners are true scanner solutions, not just a digicam mounted on an expensive frame.

Bookeye® 5 V2 is available in three models: Basic, Kiosk and Professional

Basic: The entry level model offers the same scanning functionality and speed as the other levels at the lowest possible cost.

Kiosk: This model includes all of the features of the Basic model plus the Scan2Pad application for scanning and operation with any mobile device, foot switch and Full Coverage Warranty.

Professional: This model includes all of the features of the Basic model, but has a higher resolution of 600 dpi and client interface for 3rd party software to meet the highest quality standards. It also includes a foot switch and Full Coverage Warranty.

To see all of the new features and functionality and to learn more about the three Bookeye 5 V2 models, visit the Bookeye 5 V2 pages on our website.

About Image Access
Image Access is the technology leader in the large format scanning market and offers products in all large format segments: Bookeye® overhead scanners for valuable books more than A1 in size, WideTEK® ART non-contact fine art scanner for formats up to 36 x 60 inches, WideTEK® flatbed scanners for formats greater than A2 / 25x18.5", WideTEK® sheet feed scanners for documents between 36", 48" and 60", 36"duplex scanners for high volume production of double sided scans and WideTEK® MFP Solutions.
