

The Best in Book Scanning Bookeye® 5 V3A/V2A Automatic from Image Access

Wuppertal, Germany – September 15, 2021

The latest additions to the 5th generation line of Image Access book scanners, the [Bookeye® 5 V3A/V2A Automatic](#) are the perfect solution for automated high end digitization of books, magazines, posters, folders, or bound documents of all kinds. Completely redesigned to meet the latest technological standards and to comply with the strictest environmental standards, it offers unsurpassed image quality paired with simple operation, a modern design, and literally maintenance-free operation for all professional applications.

With its 600 dpi and a scan time of less than 3 seconds for the entire A3+ capture area, it is equally suitable for both large and small digitization projects.

A special highlight: the new, motor-driven V-shaped glass plate, ensures the most gentle digitization of your books and source documents. The V-shaped glass plate is controlled via the ScanWizard's extended user interface. The new control panel with animated function buttons allows, horizontal movement up and down, setting the speed or position in which the glass plate remains after the finished scan job. Like all other Image Access Bookeye book scanners, the book cradle can also be used in flat mode.

A 21 inch full HD multitouch screen allows the operator to control image quality and make many modifications on the fly. Attach a second, optional screen to operate the scanner with the main touchscreen and preview images using the second screen. The Live Preview function uses a second matrix camera to present a live video view of the document position before scanning.

The [Bookeye® 5 V3A/V2A Automatic](#) book scanners are the perfect solution for demanding applications, highly efficient reproduction, and preservation projects of highly sensitive source material in libraries, archives, offices and more.

Be inspired by the entire line of [Bookeye® 5](#) book scanners and experience the best in book scanning at a very attractive price.
