

## **Image Access at IFLA 2013**

The <u>79th IFLA General Conference</u>, the global Library and Information Congress will be held from 18 - 23 August 2013 in Singapore.

Visit Image Access and <u>SMA</u> at booth D101 - Level 4, Hall 401/402 - at the Suntec Singapore International Convention & Exhibition Centre.

Several members of the Bookeye® scanner family will be demonstrated at IFLA such as the new Bookeye 4 V1A, a production scanner for digitizing originals up to A1 + size and also the A2 book scanners Bookeye 4 Kiosk and Bookeye® 4 Professional. The unique book cradle of the Bookeye 4 scanner makes it possible to digitize bound documents in the book friendly V-position (120°) or flat documents at up to 180° degrees. Innovation and the experience of over 18 years of manufacturing and sales of overhead book scanners come together in this extensive product family. In keeping with this year's congress theme "Future Libraries: Infinite Possibilities", visitors can learn more about mobile scanning with the Scan2Pad app. Feel free to download your App from the iTunes Store.

We are looking forward to welcome you at our stand.
